Lagos, Lagos

Summary

As a Frontend Developer, I bring designs to life by using code to solve real-world problems. With a proven track record of collaborating effectively with team members and stakeholders, I excel at delivering high-quality work efficiently. I am skilled in a variety of frontend development technologies, including HTML, CSS, and JavaScript. Whether working independently or as part of a team, I am committed to delivering innovative solutions that meet the needs of my clients and users.

Experience

Front End Developer

NerdWarex

03/2023

Nerdwarex is a first of its kind crypto payment-based online learning platform which helps to further improve security, reduce the risk of funds loss, and more.

- Collaborated with the product design team to develop the design of key pages, such as the about us page and courses page, using Reactjs, TailwindCSS, and also Framer Motion for the various animations on the page.
- Implemented the functionality for users to connect a crypto wallet using the Unstoppable Domains to their Nerdwarex account, resulting in improved security and reduced risk of funds loss.
- Worked closely with fellow frontend developers to identify and fix major and minor bugs, ensuring the smooth operation of the platform.
- Contributed to the ongoing development of the product by implementing new features and improving existing ones.
- Utilized agile development methodologies to ensure timely delivery of high-quality code.

Front End Developer

AltSchoolAfrica School of Software Engineering • Lagos, Lagos

04/2022 - 06/2023

AltSchool Africa is a school for individuals looking to gain technical skills to kickstart a career in Software Engineering and earn a Diploma in highly-sought after tech skills.

- Led a team of circle members to successfully implement a Telecom carrier Identifier, resulting in improved functionality and user experience of the webapp.
- Created and managed the team's repository, overseeing tasks such as merging pull requests and ensuring version control.
- Developed and delivered key functionalities of the webapp, using technologies such as HTML, CSS, and JavaScript to bring designs to life.
- Collaborated with the product design team to ensure that the webapp met user needs and provided a seamless experience.
- Contributed to the ongoing development of the curriculum by providing feedback and suggestions for improvement.

Front End Developer

HNG Internship • Lagos, Lagos

09/2022 - 11/2022

HNG Internship is a large scale, fast-paced virtual internship for people learning code, design, project management and technical sales/marketing.

- Collaborated with a cross-functional team of product managers, product designers, and software developers to

build a web app for a specific product.

- Took charge of building and developing the 'About Us' section of the web app, using technologies such as ReactJs and TailwindCSS to create an engaging, responsive and informative page.
 - Completed the 'About Us' section on schedule, ensuring that it met the requirements of both the product design team and the end users.
 - Assisted in resolving merge conflicts that occurred in the team's repository, helping to ensure that code was merged correctly and on time.
 - Participated in daily stand-ups and regular code reviews, providing feedback and suggestions to improve the quality of the code and the overall functionality of the web app.
-
